SKILLS

C#
.NET Core
.NET MVC
Entity Framework Core
.NET Web API
Rest APIs
LINQ
Angular
JavaScript
SQL
HTML
CSS
Git
Visual Studio

EDUCATION

B. Tech. In Computer Science — 2022
Shambhunath Institute of Engineering & Technology — 8.4

Senior Secondary (XII) — 2018
Air Force School — 7.3

Secondary (X) — 2016
Air Force School — 10

CERTIFICATES

C Programming.
Database Management System.
Design and Analysis Algorithm.

SOFT SKILLS

Problem Solving Ability & Critical Thinking.
Agile and scrum methodologies.
Leadership & mentorship.
Strong collaboration & communication.

PROFILE

Accomplished .NET developer with over 1 years of experience in designing, developing, and maintaining scalable web applications and services. Proficient in C#, ASP.NET Core, and SQL Server, with a strong understanding of object-oriented programming, RESTful API design, and front-end technologies like Angular, ReactJS, JavaScript, HTML and CSS. Excellent problem-solving skills, high-quality coding skills, and an ability to manage time efficiently.

WORK EXPERIENCE

Nagarro Software Pvt. Ltd.   Oct 2022 - Nov 2023

Project 1 - Reimbursement Portal

- Reinforced an employee reimbursement system with role-based authentication.
- Collaborated effectively with a team of 4 to ensure the successful development and deployment of the web app.
- Consolidated Docker and Kubernetes for containerized deployment, improving scalability by 40%.
- Utilized SQL for script creation and execution, automating tasks and improving efficiency by 10%.
- Conducted comprehensive testing and debugging, leading to a 20% reduction in reported bugs and issues.

Project 2 – Result Management System

- Built a result management web app with authentication for teachers and students.
- Enabled record creation, editing, and viewing functionalities with secure access control.
- Employed on AWS Lambda & DynamoDB, improving query performance by 35%.

Personal Projects

Project - Blog Posting App

- Unfolded a blog post application with features for creating, viewing, editing, deleting and liking the posts.
- Fused Redux for state management, ensuring seamless data flow.
- Implemented RESTful API with Express.js, reducing server response time by 20%.
